Schedule -

RepairPal.com

Guide

To check this, the airbag will need to be removed. The horn wire will be visible and how it clips into the steering wheel can be seen. It should be plugged in if it is not in place. If the wire is in the holder it should be removed and jumped

Bookmark File

PDF 99 Gmc

to ground. If the horn sounds, then either the wire is bad or the horn pad switch in the airbag is defective, in which case a new airbag assembly will be required.
