Automatic Solar  
Tracking Sun  
system can be  
used as a power  
generating  
method from  
sunlight. This  
project helps  
for power  
generation by  
setting the  
equipment to get  
maximum  
intensity  
sunlight  
automatically.

# Read Online Automatic Solar

When there is  
decrease in  
intensity of  
light, this  
system  
automatically  
changes its  
direction to get  
maximum  
intensity of  
light.

panel throughout the day. The solar tracking system starts following the sun right from dawn, throughout the day till evening, and starts all over again from the dawn next day.

**Solar Tracking**

# Read Online Automatic Solar Tracking | Full Circuit Diagram Available

Solar tracking systems allow solar panels to follow the sun's path in the sky to produce more solar electricity. While solar trackers will increase the
