Mirrlees Blackstone existed in their first incarnation as Blackstone & Co. on 29th January, 1889. They were a producer of farming implements, and in 1896, had started to build lamp start oil engines. By 1912 they had developed a new internal combustion engine that ran on vaporising oil, and by 1919 they had installed a 25 horsepower, three-cylinder version into a crawler tractor, which they ...

However, their engines have been found to be less long-lived that the traditionally robust and simple to maintain engine as supplied by Blackstone. In the meantime cheap spare parts for many British built engines have been coming into the area from India. Generally, though, these have been of poor quality and move was made to lift some of the export restrictions to these two countries. Despite ...
