E-Commerce, or electronic commerce, is the conducting of business through electronic means (typically computer systems and the Internet) rather than through traditional face-to-face, mail-order, or telephone transactions. There are two major categories of e-commerce transactions: business-to-business and business-to-consumer.

Ecommerce, also known as electronic commerce or

Access Free Encyclopaedia Of E Commerce E Business And Information

Internet commerce, refers to the buying and selling of goods or services using the internet, and the transfer of money and data to execute these transactions. Ecommerce is often used to refer to the sale of physical products online, but it can also describe any kind of commercial transaction that is facilitated through the internet.

~~Ecommerce Definition — What is Ecommerce~~

Although in the vernacular e-commerce usually refers only to the trading of goods and services over the Internet, broader economic activity is included. E-commerce consists of business-to-consumer and business-to-business commerce as well as internal
