Sheep Heart Dissection Lab for High School Science | HST

Heart Dissection Lab Report. PURPOSE: We dissected a heart in order to visually understand the parts of the heart, what it's made of, how it works, and what it looks like in real life. By examining a heart we can learn many different things like for example, how all of its parts work together in order to make the circulatory system work, which is one of the most important and complex systems in our body.
