All 11 Hummingbirds in the United States [With Pictures]

Hundreds of kinds of hummingbirds nest in the American tropics, and more than a dozen in the western U.S., but east of the Great Plains there is only the Ruby-throat. There it is fairly common in summer in open woods and gardens. Hovering in front of a flower to sip nectar, it beats its wings more than 50 times per second. Impressive migrants despite their small size, some Ruby-throats may ...
