## Outcrop Bolck Diagram Sequencing Lab Answers

Yeah, reviewing a ebook **outcrop bolck diagram sequencing lab answers** could accumulate your near links listings. This is just one of the solutions for you to be successful. As understood, finishing does not recommend that you have astonishing points.

Comprehending as without difficulty as conformity even more than further will find the money for each success. adjacent to, the proclamation as competently as perspicacity of this outcrop bolck diagram sequencing lab answers can be taken

Lab: Outcrop Block Diagram Sequencing. Modified from worksheets and labs by Drew Patrick , Phil Medina, and Tom McGuire. General Instructions: You must use science terms: Erosion, Deposition, Faulting, etc. in your descriptions. Each event needs to be recorded individually. Weathering, Erosion & any Unconformity are SEPARATE EVENTS!

On the block diagram on the right, follow the example by drawing a cross section on the blank front part of the block. What is the relative ages of beds A, B, and C? A is oldest, B is middle, C is youngest. On the diagram at left fill in the strike and dip symbol at the locations denoted by the letters. Then draw a cross section along the line X-Y.
