Signs of Safety IT Solution. To effectively implement the Signs of Safety approach within a statutory child protection agency, the organisation needs to align its policies, procedures, learning, supervisory, measurement and recording systems with the practice approach. The Signs of Safety IT Solution has been designed by experienced Signs of Safety practitioners, trainers and consultants to allow case practice and statutory compliance to work together.

~~Andrew Turnell — Signs of Safety~~
Signs of Safety (SoS; Turnell & Edwards, 1999) is a clinical framework for child protection services that is developed to assist professionals at all stages of the child protection process, aiming to detect and discuss child maltreatment in early stages and to establish child safety. It is developed through the 1990s in Western Australia.

~~Signs of Safety in Minnesota~~
Safety Organized Practice (SOP) is a collaborative practice approach that emphasizes the importance of teamwork in child welfare. SOP aims to build and strengthen partnerships with the child protection agency and within a family by involving informal support networks of friends and relatives. 1 A central belief of SOP is that all families have strengths.
