Most of the causes of poverty are relevant to any geographic locale: macroeconomic gyrations, low levels of human capital, discrimination, and factors that limit productivity, such as drug and alcohol addictions. However, urban poverty has additional causes and consequences related to the economic segregation of metropolitan regions. This article begins by examining the fundamental demographic ...

Economic policy. Economic policy is often implemented at the urban level thus economic policy is often tied to urban policy (McCann 2001:3). Urban problems and public policy tie into urban economics as the theme relates urban problems, such as poverty or crime, to economics by seeking to answer questions with economic guidance.

## **Urban economics - Wikipedia**

Emphasis is placed on economic theory and empirical studies that are based in economic theory. The book also explores the policy lessons that can be drawn from the use of economics to understand urban areas. Real estate professionals will find new coverage of urban areas around the world to provide a global perspective.

## **Regional Science and Urban Economics - Journal - Elsevier**

A comprehensive theory of a system of cities is an essential component of economists' efforts to understand and model economic growth and international trade. Modern urban economics, traced to Alonso (1964), Mills (1967) and Muth (1969) spearheaded a theory of the internal structure of a city emphasizing land markets and land use.

"Urban Economics and Fiscal Policy is a superb resource for undergraduate and graduate students interested in all types of economics related to cities. It provides a first-rate theoretical and empirical approach, presented in engaging ways."—Rebecca Diamond, Stanford University

## **Urban Economics and Fiscal Policy | Princeton University Press**

Urban economics is broadly the economic study of urban areas; as such, it involves using the tools of economics to analyze urban issues such as crime, education, public transit, housing, and local government finance. More specifically, it is a branch of microeconomics that studies urban spatial structure and the location
