I am a dealer of clavinova for over 30 years. the book value of a cvp 50 is 200.00 max. don't pay a dime more for it. If you want to get something far more up to date and availability of parts and a three year in home service warranty, new yamaha digitals start at less than 800.00 with a full 88 note much better action piano than the cvp 50.

Little sound compared to today's keyboards but very good quality (Yamaha quality). This is really nice. I had a preference for his 36 (Modern XP) with dual Piano, piano or violin. The sounds are quite realistic in general, a little less for the trumpets, or guitar. The expression is quite impressive, especially with the sound of the bass (slap possibility).
